

# HUE UNIVERSITY UNIVERSITY OF SCIENCES

# INTRODUCTION

In March 1957, Hue University was founded with four higher education faculties: Faculty of Teachers' Training, Faculty of Science, Faculty of Letters and Faculty of Laws. Then, there included the Faculty of Medicine and other training centers. After the reunification of Vietnam in 1975, the Hue University of Sciences (HUSC) was established based on the Faculty of Letters and the Faculty of Science. In 1994, a new university named Hue University was established on the basis of HUSC and other colleges in Hue city. Since then, HUSC has become a member of Hue University.

HUSC is a multidisciplinary education and training institution including graduate and undergraduate education programs, and research activities. Its obligation is to provide qualified human resources, scientific research products in the fields of natural science, social science and humanity for facilitating the development of Central Vietnam and Highlands in particular and Vietnam in general.

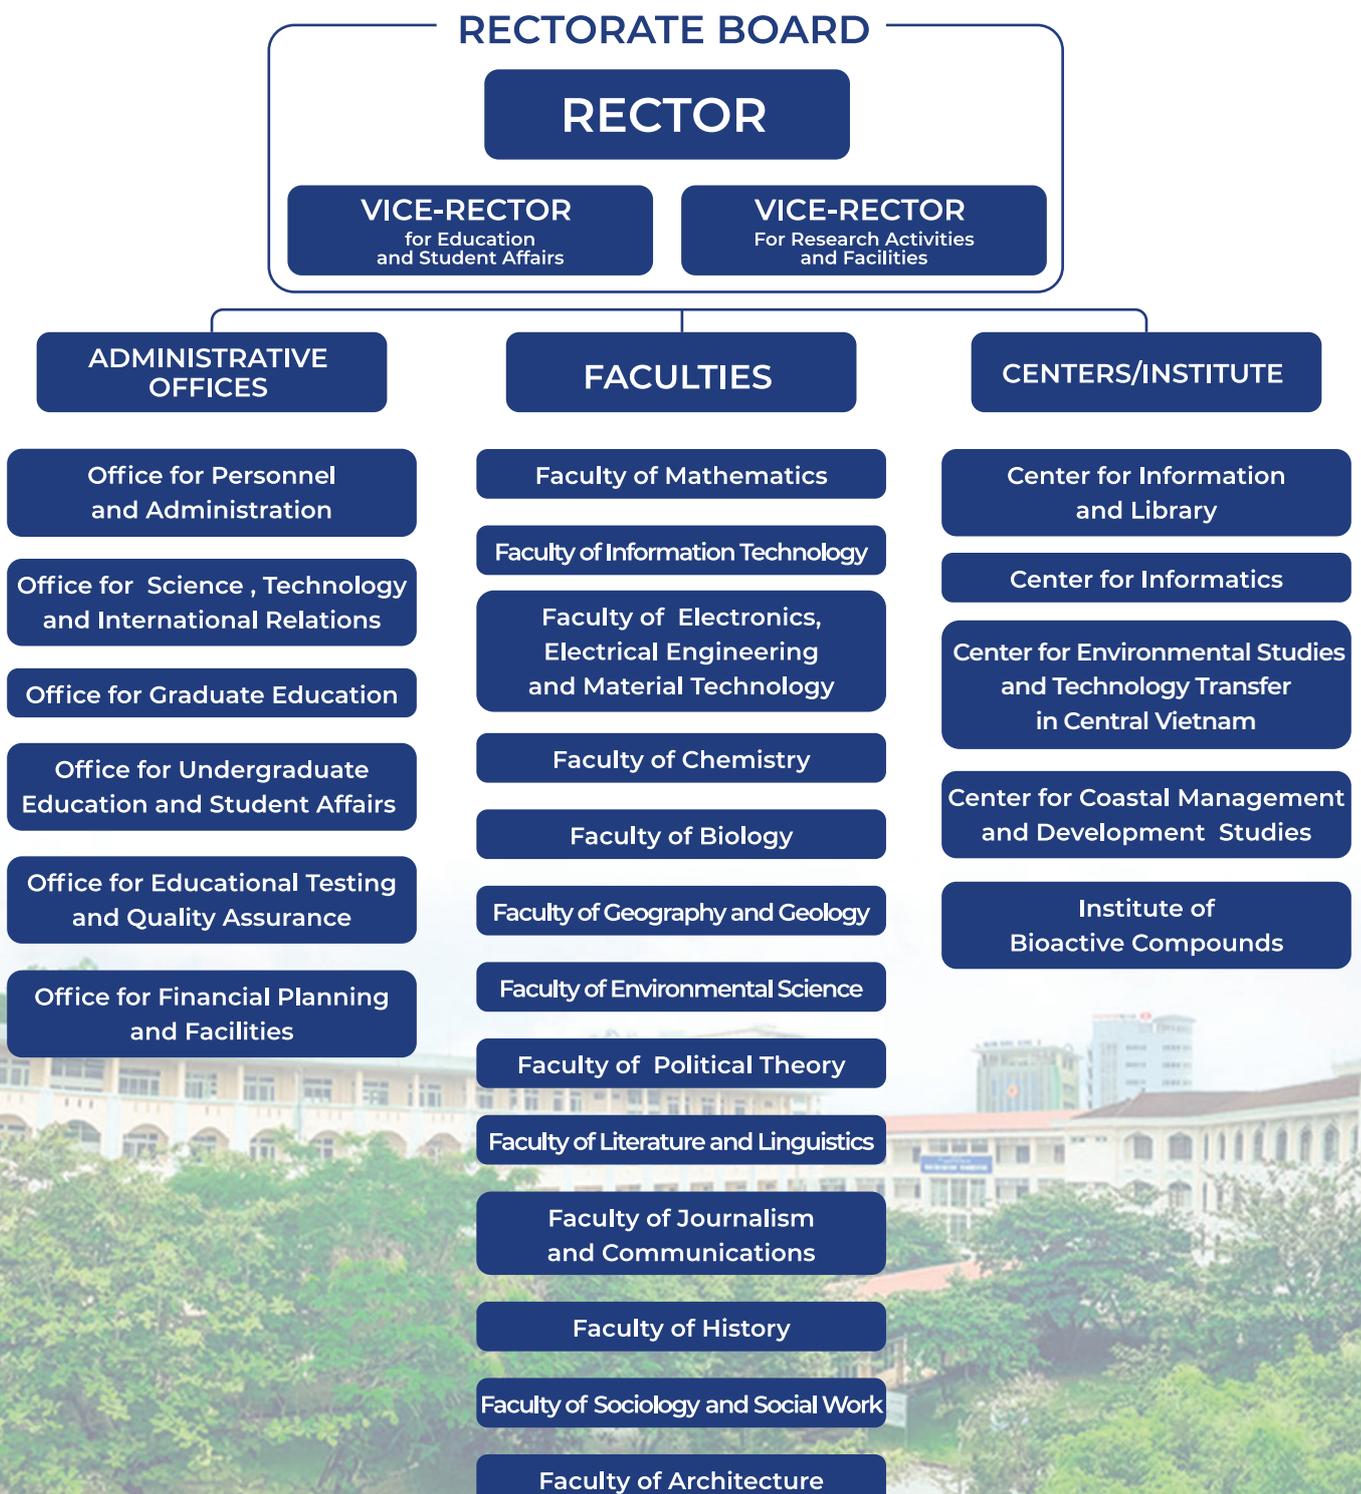

Before the 1990s, HUSC was a prestigious university in Vietnam. Since then, HUSC is one of the leading universities in Central Vietnam and Highlands in terms of education and research. HUSC is always a selected destination for undergraduate and graduate students who are ambitious to become promising researchers, lecturers, managers as well as leaders.

HUSC has been renewed itself for adapting to the recent changes of Vietnam's educational system and promoting the application of the education and knowledge procured at the university of all fields.

# ORGANIZATION

University of Sciences, Hue University now consists of 13 faculties, 3 research centers, 1 service center, 1 institute and 6 administrative offices. There are 387 staff members with 39 Professors and Associate Professors, 83 Ph.D holders and 176 Master holders (as of January 2021). Two campuses of the University named Nguyen Hue and Truong Bia occupy a total area of about 72,500 m<sup>2</sup> (Truong Bia campus - a new one being built).

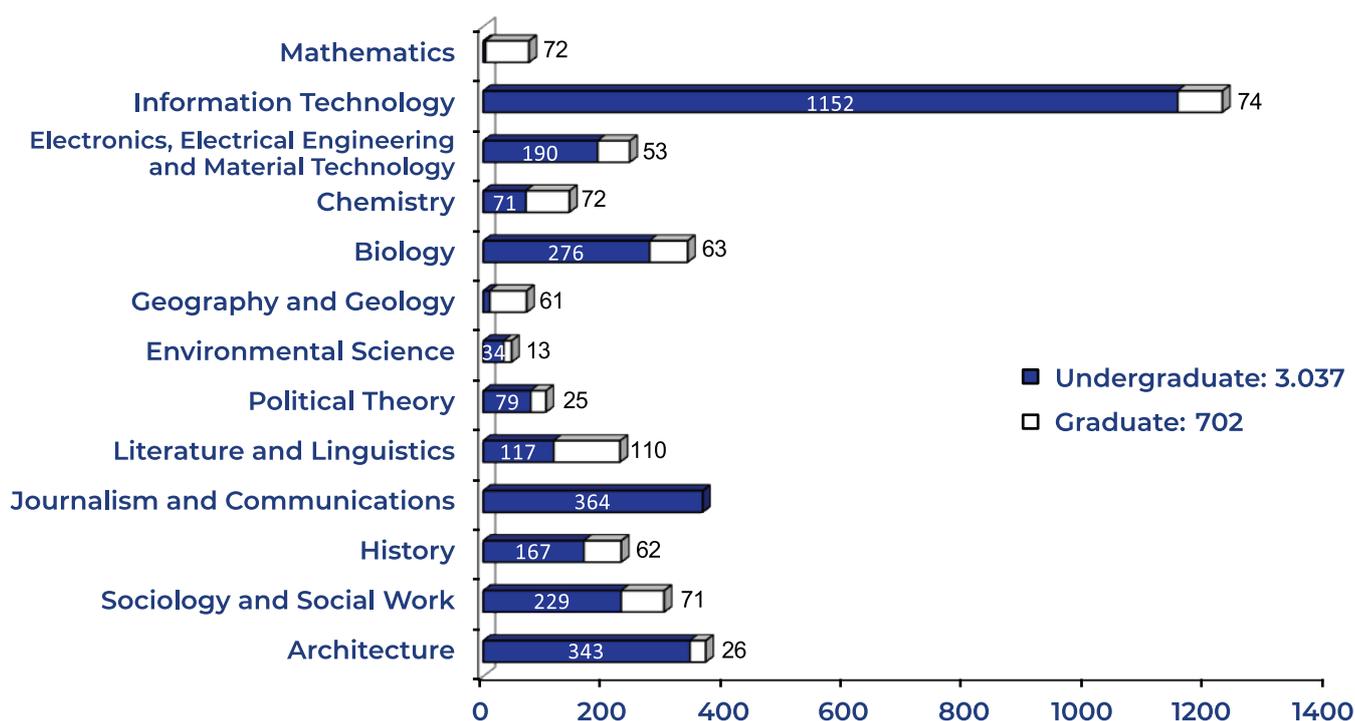

# NUMBER OF STAFF MEMBERS

(as of January 2021)

Faculty	Prof. & Assoc. Prof.	Ph.D	MSc/MA	BSc/BA	Others	Total
Faculty of Mathematics	2	7	10	3		22
Faculty of Electronics, Electrical Engineering and Material Technology	4	8	12	3		27
Faculty of Information Technology	4	8	12	3		27
Faculty of Chemistry	9	5	10	2		26
Faculty of Biology	4	9	7	1	1	22
Faculty of Geography and Geology	4	7	10	2		23
Faculty of Environmental Science	3	4	7	2		16
Faculty of Political Theory	1	9	15			25
Faculty of Literature and Linguistics	2	8	14			24
Faculty of Journalism and Communications	1	1	8	5		15
Faculty of History	4	6	13	2		25
Faculty of Sociology and Social Work	1	4	16	4		25
Faculty of Architecture		7	15	2		24

# NUMBER OF STUDENTS ENROLLED AT UNIVERSITY OF SCIENCES, HUE UNIVERSITY

(as of January 2021)

# UNDERGRADUATE AND GRADUATE COURSES

The Hue University of Sciences offers graduate courses (including 16 doctoral courses, 23 master's degree courses) and undergraduate courses (23 courses for bachelor's degree, engineer's degree and architect's degree).

	Graduate and undergraduate courses		
	Bachelor's Degree (23)	Master's Degree (23)	Doctoral Degree (16)
<b>Mathematics</b>	- Applied mathematics - Data Analysis	- Mathematics - Applied Mathematics	
<b>Information Technology</b>	- Information Technology - Software Engineering	- IT management - Computer Science	- Computer Science
<b>Electronics, Electrical Engineering and Material Technology</b>	- Electronics and Communication Engineering (*)	- Solid State Physics - Electronic Engineering	- Solid State Physics
<b>Chemistry</b>	- Chemistry - Chemical Engineering and Technology (*)	- Chemistry	- Analytical Chemistry - Organic Chemistry - Physical Chemistry and Theoretical Chemistry
<b>Biology</b>	- Bioengineering (*) - Biotechnology (*)	- Biology - Biotechnology - Experimental Biology - Natural Resources and Environmental Management	- Biotechnology - Plant Physiology - Human and Animal Physiology - Natural Resources and Environmental Management
<b>Geography and Geology</b>	- Geological Engineering - Natural Resources and Environmental Management	- Geological Engineering - Geography of Natural Resources and Environment	- Geology
<b>Environmental Science</b>	- Environmental Science - Environmental Engineering (*)	- Environmental Science	- Environmental Science
<b>Political theory</b>	- Philosophy - State Management	- Philosophy	
<b>Literature and Linguistics</b>	- Literature - Sino - Nom	- Literature - Linguistics	- Vietnamese Literature - Linguistics
<b>Journalism and Communications</b>	- Journalism		
<b>History</b>	- History - Oriental Studies	- Vietnamese History - World History - Ethnology - Cultural Management	- Vietnamese History - World History - Ethnology
<b>Sociology and Social Work</b>	- Sociology - Social Work	- Social Work	
<b>Architecture</b>	- Architecture (**)	- Architecture	

(\*) Courses for Engineer's Degree.

(\*\*) Courses for Architect's Degree.

# RESEARCH ACTIVITIES

Research activities of University of Sciences, Hue University have been conducted in the fields of Natural Science, Engineering, Social Sciences and Humanities. Priority researches have been concentrated on the following issues:

- Impacts of development and climate change on environment, socio-economy, culture;
- The Vietnamese culture and society in Nguyen Dynasty;
- Conservation of cultural heritages, historical and architectural relics.

- Pure and applied mathematics;
- Piezoelectric materials for application of high power ultrasonic transducers;
- Biodiversity and bio-technology;
- Environmental analysis and engineering;
- Environmental and resources management;
- Chemistry of natural products;
- GIS and remote sensing applications;
- Climate change mitigation and adaptation;
- Solid waste management.

# INTERNATIONAL CO-OPERATION
